Boulenger, G.A. (1897e) Description of a new snake from the Andes of Colombia. *Annals and Magazine of Natural History*, London (Series 6) 20(120), 523.

Boulenger, G.A. (1897f) A new krait from Sind (*Bungarus sindanus*). *The Journal of the Bombay Natural History Society* (1897–1898) 11(1), 73–74, 1 pl.

Boulenger, G.A. (1897g) A catalogue of the reptiles and batrachians of Celebes, with special reference to the collections made by Drs. P. & F. Sarasin in 1893–1896. *Proceedings of the Zoological Society of London* 65(1), 193–237, pls. 7–16.

Boulenger, G.A. (1897h) A list of the reptiles and batrachians collected in northern Nyasaland by Mr. Alex. Whyte, F.Z.S., and presented to the British Museum by Sir Harry H. Johnston, K.C.B.; with descriptions of new species. *Proceedings of the Zoological Society of London* 65(3), 800–803, pl. 46.

Boulenger, G.A. (1897i) A list of the reptiles and batrachians of Somaliland and Gallaland. *Annali del Museo Civico di Storia Naturale di Genova* (Series 2) 17(37), 275–280.

Boulenger, G.A. (1897j) Reptilia and Batrachia. *In: Zoological Record* (1896) 3(4)3, 1–38.

Boulenger, G.A. (1898a) A list of reptiles and batrachians from Ombaai, East Indian Archipelago. *Annals and Magazine of Natural History*, London (Series 7) 1(2), 122–124.

Boulenger, G.A. (1898b) Description of two new blind snakes. *Annals and Magazine of Natural History*, London (Series 7) 1(2), 124.

Boulenger, G.A. (1898c) Description of a new genus of aglyphous colubrine snakes from Sumatra. *Annals and Magazine of Natural History*, London (Series 7) 2(7), 73–74, 4 figs.

Boulenger, G.A. (1898d) Description of a new death-adder (*Acanthophis)* from central Australia. *Annals and Magazine of Natural History*, London (Series 7) 2(7), 75.

Boulenger, G.A. (1898e) On a second collection of reptiles made by Mr. E. Lort-Phillips in Somaliland. *Annals and Magazine of Natural History*, London (Series 7) 2(8), 130–133.

Boulenger, G.A. (1898f) Descriptions of two new snakes from Queensland. *Annals and Magazine of Natural History*, London (Series 7) 2(11), 414.

Boulenger, G.A. (1898g) Description of a new sea-snake from Borneo. *Proceedings of the Zoological Society of London* 66(1), 106–107, pl. 9.

Boulenger, G.A. (1898h) An account of the reptiles and batrachians collected by Mr. W.F.H. Rosenberg in western Ecuador. *Proceedings of the Zoological Society of London* 66(1), 107–126, pls. 10–18.

Boulenger, G.A. (1898i) An account of the reptiles and batrachians collected by Dr. L. Loria in British New Guinea. *Annali del Museo Civico di Storia Naturale di Genova* (Series 2) 18(38), 694–710, pls. 6–8.

Boulenger, G.A. (1898j) Concluding report on the late Capt. Bottego's collection of reptiles and batrachians from Somaliland and British East Africa. *Annali del Museo Civico di Storia Naturale di Genova* (Series 2) 18(38), 715–723, pls. 9–10.

Boulenger, G.A. (1898k) A list of the reptiles and batrachians collected by the late Prof. L. Balzan in Bolivia. *Annali del Museo Civico di Storia Naturale di Genova* (Series 2) 19(39), 128–133.

Boulenger, G.A. (1898l) On a little-known sea-snake from the South Pacific. *In:* Willey, A. (Ed.), *Zoological results, based on material from New Britain, New Guinea, Loyalty Islands and elsewhere collected during the years 1895, 1896 and 1897.* Cambridge University, Cambridge, 1, 57–58, pl. 5.

Boulenger, G.A. (1899a) Descriptions of the new species of reptiles collected by Dr. H.O. Forbes and Mr. W.R. Ogilvie Grant in the islands of Abd-el-Kuri and Socotra. *Bulletin of the Liverpool Museum* 2, 4–7.

Boulenger, G.A. (1899b) On a collection of reptiles and batrachians made by Mr. J.D. La Touche in N.W. Fokien, China. *Proceedings of the Zoological Society of London* 67(1), 159–172, 2 figs., pls. 16–19.

Boulenger, G.A. (1899c) Descriptions of three new reptiles and a new batrachian from Mount Kina Balu, North Borneo. *Annals and Magazine of Natural History*, London (Series 7) 4(24), 451–454.

Boulenger, G.A. (1899d) A new sea snake of the genus *Distira*, from Kurrachee. *The Journal of the Bombay Natural History Society* (1898–1899) 12(4), 642, 1 pl.

Boulenger, G.A. (1899e) Reptilia and Batrachia. *In: Zoological Record* (1898) 35(4), 1–29.

Boulenger, G.A. (1900a) Descriptions of new reptiles from Perak, Malay Peninsula. *Annals and Magazine of Natural History*, London (Series 7) 5(27), 306–308.

Boulenger, G.A. (1900b) Descriptions of new batrachians and reptiles collected by Mr. P.O. Simons in Perú. *Annals and Magazine of Natural History*, London (Series 7) 6(32), 181–186.

Boulenger, G.A. (1900c) Description of a new snake from the Perak Hills. *The Journal of the Bombay Natural History Society* (1900–1902) 13(2), 336.

Boulenger, G.A. (1900d) Descriptions of new batrachians and reptiles from the Larut Hills, Perak. *Annals and Magazine of Natural History*, London (Series 7) 6(32), 186–193.

Boulenger, G.A. (1900e) Description of a new snake of the genus *Ablabes* from Burma. *Annals and Magazine of Natural History*, London (Series 7) 6(34), 409.

Boulenger, G.A. (1900f) Descriptions of new reptiles and batracians from Borneo. *Proceedings of the Zoological Society of London* 69(2), 182–187, pls. 14–17.

Boulenger, G.A. (1900g) A list of the batrachians and reptiles of the Gaboon (French Congo), with descriptions of new genera and species. *Proceedings of the Zoological Society of London* 69(3), 433–466, pls. 27–32.

Boulenger, G.A. (1900h) On a new blind snake from Lifu, Loyalty Islands. *In:* Willey, A. (Ed.), *Zoological results, based on material from New Britain, New Guinea, Loyalty Islands and elsewhere collected during the years 1895, 1896 and 1897.* Cambridge University, Cambridge (5), 603–604, 4 figs.

Boulenger, G.A. (1900i) Reptilia. *In:* Andrews, C.W. (Ed.), *A monograph of Christmas Island (Indian Ocean), physical features and geology, with descriptions of the fauna and flora by numerous contributors*. British Museum (Natural History), London, pp. 51–54, pl. 7.

Boulenger, G.A. (1901a) Matériaux pour la faune du Congo. Reptiles nouveaux. *Annales du Musée du Congo* (*Zoologie*), Bruxelles 2(1), 7–14, pls. 3–5.

Boulenger, G.A. (1901b) Description of a new snake of the genus *Ablabes* from Burma. *The Journal of the Bombay Natural History Society* (1900–1901) 13(3), 553.

Boulenger, G.A. (1902a) Descriptions of new batrachians and reptiles from north-western Ecuador. *Annals and Magazine of Natural History*, London (Series 7) 9(49), 51–57.

Boulenger, G.A. (1902b) Description of new fishes and reptiles discovered by Dr. F. Silvestri in South America. *Annals and Magazine of Natural History*, London (Series 7) 9(52), 284–288.

Boulenger, G.A. (1902c) List of the fishes, batrachians, and reptiles collected by the late Mr. P.O. Simons in the provinces of Mendoza and Cordova, Argentina. *Annals and Magazine of Natural History*, London (Series 7) 9(53), 336–339.

Boulenger, G.A. (1902d) Descriptions of new batrachians and reptiles from the Andes of Peru and Bolivia. *Annals and Magazine of Natural History*, London (Series 7) 10(59), 394–402.

Boulenger, G.A. (1902e) Description of a new snake of the genus *Pseudechis* from Queensland. *Annals and Magazine of Natural History*, London (Series 7) 10(60), 494–495.

Boulenger, G.A. (1902f) Description of a new snake of the genus *Psammophis*, from Cape Colony. *Proceedings of the Zoological Society of London* 72(1), 126, pl. 12.

Boulenger, G.A. (1903a) On some batrachians and reptiles from Venezuela. *Annals and Magazine of Natural History*, London (Series 7) 11(65), 481–484.

Boulenger, G.A. (1903b) Descriptions of new snakes in the collection of the British Museum. *Annals and Magazine of Natural History*, London (Series 7) 12(69), 350–354.

Boulenger, G.A. (1903c) Descriptions of new reptiles from British New Guinea. *Proceedings of the Zoological Society of London* 73(1), 125–129, pls. 12–13.

Boulenger, G.A. (1903d) On the geographical variations of the sand-viper, *Vipera ammodytes*. *Proceedings of the Zoological Society of London* 73(1), 185–186, figs. 27–28.

Boulenger, G.A. (1903e) Description of a new sea-snake from Rangoon. *The Journal of the Bombay Natural History Society* (1902–1903) 14(4), 719, 1 pl.

Boulenger, G.A. (1903f) Report on the batrachians and reptiles. *Fasciculi Malayenses*, London 1, 131–176, 3 figs., pls. 5–10.

Boulenger, G.A. (1903g) The reptiles of Sokotra. *In:* Forbes, H.O. (Ed.), *Natural History of Sokotra and Abd-el-Kuri*. Liverpool Museum, Liverpool, pp. 75–104, pls. 8–11.

Boulenger, G.A. (1904a) Descriptions of new frogs and snakes from Yunnan. *Annals and Magazine of Natural History*, London (Series 7) 13(74), 130–134.

Boulenger, G.A. (1904b) Descriptions of three new snakes. *Annals and Magazine of Natural History*, London (Series 7) 13(78), 450–452.

Boulenger, G.A. (1904c) Descriptions of two new Elapine snakes from the Congo. *Annals and Magazine of Natural History*, London (Series 7) 14(79), 14–15.

Boulenger, G.A. (1904d) Description of a new snake. *Spolia Zeylanica*, Colombo 2(7), 95–96, 1 pl.

Boulenger, G.A. (1904e) On the sand-viper of Roumania (*Vipera ammodytes* var. *Montandoni*). *Annals and Magazine of Natural History*, London (Series 7) 14(80), 134–135.

Boulenger, G.A. (1905a) Description of a new snake of the genus *Atractaspis* from Mount Kenya, British East Africa. *Annals and Magazine of Natural History*, London (Series 7) 15(86), 190.

Boulenger, G.A. (1905b) Descriptions of new snakes in the collection of the British Museum. *Annals and Magazine of Natural History*, London (Series 7) 15(89), 453–456.

Boulenger, G.A. (1905c) Description of a new snake from Venezuela. *Annals and Magazine of Natural History*, London (Series 7) 15(90), 561.

Boulenger, G.A. (1905d) A list of the batrachians and reptiles collected by Dr. W.J. Ansorge in Angola, with descriptions of new species. *Annals and Magazine of Natural History*, London (Series 7) 16(92), 105–115, pl. 4.

Boulenger, G.A. (1905e) Descriptions of three new snakes discovered in south Arabia by Mr. G.W. Bury. *Annals and Magazine of Natural History*, London (Series 7) 16(92), 178–180.

Boulenger, G.A. (1905f) Descriptions of two new snakes from Upper Burma. *The Journal of the Bombay Natural History Society* (1904–1905) 16(2), 235–236, 1 pl.

Boulenger, G.A. (1905g) Descriptions of new reptiles discovered in Mexico by Dr. H. Gadow, F.R.S. *Proceedings of the Zoological Society of London* 75(2), 245–247, pls. 6–7.

Boulenger, G.A. (1905h) Reptiles de la Guinée Espagnole. *Memorias de la Real Sociedad Española de. Historia Natural*, Madrid 1(8), 183–186.

Boulenger, G.A. (1906a) Descriptions of new reptiles from Yunnan. *Annals and Magazine of Natural History*, London (Series 7) 17(102), 567–568.

Boulenger, G.A. (1906b) Description of a new tree-viper from Mount Ruwenzoni. *Annals and Magazine of Natural History*, London (Series 7) 18(103), 37–38.

Boulenger, G.A. (1906c) Description of a new lizard and a new snake from Australia. *Annals and Magazine of Natural History*, London (Series 7) 18(108), 440–441.

Boulenger, G.A. (1906d) Description of a new snake of the genus *Glauconia*, from Somaliland. *Annals and Magazine of Natural History*, London (Series 7) 18(108), 441.

Boulenger, G.A. (1906e) Additions to the herpetology of British East Africa. *Proceedings of the Zoological Society of London* 76(3–4), 570–573, figs. 96–98.

Boulenger, G.A. (1906f) Report on the reptiles collected by the late L. Fea in West Africa. *Annali dell Museo Civico di Storia Naturale di Genova* (Series 3) 2(42), 196–216, 9 figs.

Boulenger, G.A. (1907a) Descriptions of three new snakes discovered by Mr. G.L. Bates in south Cameroon. *Annals and Magazine of Natural History*, London (Series 7) 19(112), 324–326.

Boulenger, G.A. (1907b) Description of a new pit-viper from Brazil. *Annals and Magazine of Natural History*, London (Series 7) 20(118), 338.

Boulenger, G.A. (1907c) Description of a new African snake of the genus *Simocephalus*. *Annals and Magazine of Natural History*, London (Series 7) 20(120), 489.

Boulenger, G.A. (1907d) Description of a new snake from Nepal. *Records of the Indian Museum*, Calcutta 1(3), 217.

Boulenger, G.A. (1907e) On a collection of fishes, batrachians, and reptiles, made by Mr. S.A. Neave in Rhodesia, north of the Zambesi, with field notes by the collector. *Memoirs and Proceedings of the Manchester Literary and Philosophical Society* (1906–1907) 51(12), 1–12.

Boulenger, G.A. (1908a) Descriptions of new South-American reptiles. *Annals and Magazine of Natural History*, London (Series 8) 1(1), 111–115.

Boulenger, G.A. (1908b) Note on the ophidian genus *Emydocephalus*. *Annals and Magazine of Natural History*, London (Series 8) 1(3), 231.

Boulenger, G.A. (1908c) Description of a new elapine snake of the genus *Apisthocalamus*, Blg., from New Guinea. *Annals and Magazine of Natural History*, London (Series 8) 1(3), 248–249.

Boulenger, G.A. (1908d) Description of a new elapine snake from Australia. *Annals and Magazine of Natural History*, London (Series 8) 1(4), 333–334.

Boulenger, G.A. (1908e) Note on the type specimen of a blind snake, *Helminthophis wilderi* (Garman), from Brazil. *Annals and Magazine of Natural History*, London (Series 8) 1(4), 334–335, 3 figs.

Boulenger, G.A. (1908f) On a new genus of snake from Brazil. *Annals and Magazine of Natural History*, London (Series 8) 2(7), 31–32.

Boulenger, G.A. (1908g) Descriptions of three new snakes from Africa. *Annals and Magazine of Natural History*, London (Series 8) 2(7), 93–94.

Boulenger, G.A. (1908h) Descriptions of a new frog and a new snake from Formosa. *Annals and Magazine of Natural History*, London (Series 8) 2(8), 221–222.

Boulenger, G.A. (1908i) Description of a new snake from Yunnan. *Annals and Magazine of Natural History*, London (Series 8) 2(8), 244.

Boulenger, G.A. (1908j) Descriptions of new batrachians and reptiles discovered by Mr. M.G. Palmer in south-western Colombia. *Annals and Magazine of Natural History*, London (Series 8) 2(12), 515–522.

Boulenger, G.A. (1908k) On a collection of fresh-water fishes, batrachians, and reptiles from Natal and Zululand, with descriptions of new species. *Annals of the Natal Museum*, Pietermaritzburg 1(3), 219–235, pls. 35–36.

Boulenger, G.A. (1909a) Descriptions of four new frogs and a new snake discovered by Mr. H. Sauter in Formosa. *Annals and Magazine of Natural History*, London (Series 8) 4(24), 492–495.

Boulenger, G.A. (1909b) On the ophidian genus *Grayia*. *Proceedings of the Zoological Society of London* 79(4), 944–952, figs. 295–299.

Boulenger, G.A. (1909c) Ruwenzori Expedition reports. 15. Pisces, Batrachia, and Reptilia. *Transactions of the Zoological Society of London* 19(3), 237–252, pls. 8–9.

Boulenger, G.A. (1910a) A revised list of the South African reptiles and batrachians, with synoptic tables, special reference to the specimens in the South African Museum, and descriptions of new species. *Annals of the South African Museum*, Cape Town 5, 455–538.

Boulenger, G.A. (1910b) Descriptions of four new African snakes in the British Museum. *Annals and Magazine of Natural History*, London (Series 8) 5(30), 512–513.

Boulenger, G.A. (1911a) Descriptions of new reptiles from the Andes of South America, preserved in the British Museum. *Annals and Magazine of Natural History*, London (Series 8) 7(37), 19–25.

Boulenger, G.A. (1911b) Descriptions of three new snakes discovered by Mr. G. L. Bates in South Cameroon. *Annals and Magazine of Natural History*, London (Series 8) 8(45), 370–371.

Hoser, R.T. (2012c) A new genus of jumping pitviper from Middle America (Serpentes: Viperidae). *Australasian Journal of Herpetology,* Doncaster 10, 33–34.

Hoser, R.T. (2012d) A reassessment of the higher taxonomy of the Viperidae. *Australasian Journal of Herpetology,* Doncaster 10, 35–48.

Hoser, R.T. (2012e) A reassessment of the higher taxonomy of the Elapidae. *Australasian Journal of Herpetology,* Doncaster 10, 49–63.

Hoser, R.T. (2012f) A reclassification of the rattlesnakes: species formerly exclusively referred to the genera *Crotalus* and *Sistrurus* and a division of the elapid genus *Micrurus*. *Australasian Journal of Herpetology,* Doncaster 11, 2–24.

Hoser, R.T. (2012g) A new genus of pitviper (Serpentes: Viperidae) from South America. *Australasian Journal of Herpetology,* Doncaster 11, 25–27

Hoser, R.T. (2012h) Two new genera of water snakes from North America. The subdivision of the genera *Regina* Baird and Girard, 1853 and *Nerodia* Baird and Girard, 1853 (Serpentes: Colubridae: Natricidae). *Australasian Journal of Herpetology,* Doncaster 11, 29–32.

Hoser, R.T. (2012i) The description of a new genus of west Australian snake and eight new taxa in the genera *Pseudonaja* Gunther, 1858, *Oxyuranus* Kinghorn, 1923 and *Panacedechis* Wells and Wellington, 1985 (Serpentes: Elapidae). *Australasian Journal of Herpetology,* Doncaster 11, 32-50.

Hoser, R.T. (2012j) A new genus of Asian pitviper (Serpentes: Viperidae). *Australasian Journal of Herpetology,* Doncaster 11, 51–52.

Hoser, R.T. (2012k) A taxonomic revision of the *Vipera palaestinae* Werner, 1938 species group, with the creation of a new genus and a new subgenus. *Australasian Journal of Herpetology,* Doncaster 11, 53–55.

Hoser, R.T. (2012L) A reassessment of the burrowing asps, *Atractaspis* Smith, 1849 with the erection of a new genus and two tribes (Serpentes: Atractaspidae). *Australasian Journal of Herpetology,* Doncaster 11, 56–58.

Hoser, R.T. (2012m) A taxonomic revision of the colubrinae genera *Zamenis* and *Orthriophis* with the creation of two new genera (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 11, 59–64.

Hoser, R.T. (2012n) A new genus of coral snake from Japan (Serpentes: Elapidae). *Australasian Journal of Herpetology,* Doncaster 12, 3–5.

Hoser, R.T. (2012o) A revision of the Asian pitvipers, referred to the genus *Cryptelytrops* Cope, 1860, with the creation of a new genus *Adelynhoserea* to accommodate six divergent species (Serpentes: Viperidae: Crotalinae). *Australasian Journal of Herpetology,* Doncaster 12, 6–8.

Hoser, R.T. (2012p) A division of the south-east Asian ratsnake genus *Coelognathus* (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 12, 9–11.

Hoser, R.T. (2012q) A new genus of Asian snail-eating snake (Serpentes: Pareatidae). *Australasian Journal of Herpetology,* Doncaster 12, 12–15.

Hoser, R.T. (2012r) The dissolution of the genus *Rhadinophis* Vogt, 1922 (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 12, 16–17.

Hoser, R.T. (2012s) Three new species of *Stegonotus* from New Guinea (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 12, 18–22.

Hoser, R.T. (2012t) A new genus and new subgenus of snakes from the South African region (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 12, 23–25.

Hoser, R.T. (2012u) A division of the African genus *Psammophis* Boie, 1825 into 4 genera and four further subgenera (Serpentes: Psammophiinae). *Australasian Journal of Herpetology,* Doncaster 12, 26–31.

Hoser, R.T. (2012v) A division of the African tree viper genus *Atheris* Cope, 1860 into four subgenera (Serpentes: Viperidae). *Australasian Journal of Herpetology,* Doncaster 12, 32–35.

Hoser, R.T. (2012w) A new subgenus of giant snakes (Anaconda) from South America (Serpentes: Boidae). *Australasian Journal of Herpetology,* Doncaster 12, 36–39.

Hoser, R.T. (2012x) A review of the South American snake genera *Leptodeira* and *Imantodes* including three new genera and two new subgenera (Serpentes: Dipsadidae: Imantodini). *Australasian Journal of Herpetology,* Doncaster 12, 40–47.

Hoser, R.T. (2012y) A review of the North American garter snakes genus *Thamnophis* Fitzinger, 1843 (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 12, 48–53.

Hoser, R.T. (2012z) A three-way division of the New World genus *Lampropeltis* Fitzinger, 1843 (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 12, 54–57.

Hoser, R.T. (2012aa) A review of the taxonomy of the European colubrid snake genera *Natrix* and *Coronella*, with the creation of three new monotypic genera (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 12, 58–62.

Hoser, R.T. (2012ab) Divisions of the Asian colubrid snake genera *Xenochrophis, Dendrelaphis* and *Boiga* (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 12, 65–76.

Hoser, R.T. (2012ac) Some new small-eyed snakes from Australia and New Guinea (Serpentes: Elapidae). *Australasian Journal of Herpetology,* Doncaster 13, 3–7.

Hoser, R.T. (2012ad) A division of the Asian forest ratsnakes genus *Euprepiophis* Boie, 1826 (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 13, 8–9.

Hoser, R.T. (2012ae) A three-way division of African centipede eating snakes, *Aparallactus* Smith, 1849 (Serpentes: Lamprophiidae: Aparallactinae) and a new subgenus of wolf snakes *Lycophidion* Fitzinger, 1843 (Serpentes: Lamprophiidae: Lamprophiinae). *Australasian Journal of Herpetology,* Doncaster 13, 10–14.

Hoser, R.T. (2012af) A review of kukri snakes, currently referred to the genus *Oligodon* Fitzinger, 1826, with a division into twelve genera, four further subgenera and the creation of a tribe to accommodate them (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 13, 15–34.

Hoser, R.T. (2012ag) A review of natricine genera *Tropidonophis* Jan, 1863 and *Amphiesma* Dumeril, Bibron and Dumeril, 1854 (Serpentes: Colubridae: Natricinae). *Australasian Journal of Herpetology,* Doncaster 13, 35–46.

Hoser, R.T. (2012ah) A division of the Neotropical genus *Rhadinaea* Cope, 1863 (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 13, 47–54.

Hoser, R.T. (2012ai) A division of Central American snake genera, *Coniophanes* Hallowell in Cope, 1860 into six subgenera and *Conophis* Peters, 1860 into two genera (Serpentes: Colubridae: Dipsadinae). *Australasian Journal of Herpetology,* Doncaster 13, 55–60.

Hoser, R.T. (2012aj) A division of the Asian reed snakes, genus *Calamaria* Boie, 1827 (Serpentes: Colubridae: Calamariinae). *Australasian Journal of Herpetology,* Doncaster 13, 61–64.

Hoser, R.T. (2012ak) *Yeomansus*: a new genus for the slender racer (Serpentes: Colubridae). *Australasian Journal of Herpetology,* Doncaster 14, 3–5.

Hoser, R.T. (2012aL) A division of the patch-nosed snakes, genus *Salvadora* Baird and Girard, 1853 (Serpentes: Colubridae: Colubrinae). *Australasian Journal of Herpetology,* Doncaster 14, 6–8.

Hoser, R.T. (2012am) A review of the extant Scolecophidians ("blindsnakes") including the formal naming and diagnosis of new tribes, genera, subgenera, species and subspecies for divergent taxa. *Australasian Journal of Herpetology,* Doncaster 15, 1–64.

ICZN [International Commission of Zoological Nomenclature]. (1999) *International code of zoological nomenclature.* Fourth edition. International Trust for Zoological Nomenclature, London, 306 pp. [known as the "Code" or "Rules"]

ICZN Opinion 92. (1926) Sixteen generic names of Piscers, Amphibia, and Reptilia placed in the Official List of Generic Names. Smithsonian Miscellaneous Collections 73(4), 3–4.

ICZN Opinion 188. (1945) Suppression of the name *Cobra* Laurenti, 1768, and suspension of the rules for *Bitis* Gray, 1842 (Class Reptilia, Order Squamata). *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 3(7), 77–89.

ICZN Opinion 328. (1955a) Suppression under the Plenary Powers, of the specific name "*caesius*" Cloquet, 1818, as published in the combination "*Coluber caesius*," for the purpose of validating the specific name "*irregularis*" Leach, 1819, as published in the combination "*Coluber irregularis*" (Class Reptilia, Order Squamata). *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 9(20), 299–308.

ICZN Opinion 339. (1955b) Acceptance of the name concolor Woodbury, 1929, as published in the combination *Crotalus concolor,* as the name for the yellow rattlesnake of the Colorado River Basin. *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 10(6), 181–200.

ICZN Opinion 365. (1955c) Suppression under the Plenary Powers of the specific name "*cinereous*" LeConte, 1852, as published in the combination "*Crotalus cinereous*," for the purpose of rendering the specific name "*atrox*" Baird and Girard, 1853, as published in the combination "*Crotalus atrox*," the oldest available name for the western diamond rattlesnake (Class Reptilia, Order Squamata). *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 11(15), 215–230.

ICZN Opinion 366. (1955c) Suppression under the Plenary Powers of the specific name "*multimaculata*" Jan, 1863, as published in the combination "*Crotalus lugubris* var. *multimaculata*," for the purpose of rendering the specific name "*Polysticta*," Cope, 1865, as published in the combination "*Caudisona polysticta*," the oldest available name for the Mexican lance-headed rattlesnake (Class Reptilia, Order Squamata). *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 11(16), 231–244.

ICZN Opinion 385. (1956a) Determination under the Plenary Powers of the method to be adopted in interpreting the nominal species "*Coluber sirtalis*" Linnaeus, 1758, the common garter snake of the eastern United States, and approval of the neotype designated for the foregoing species and of that designated for the ribbon snake of North America. *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 12(6), 191–230, 2 pls.

ICZN Opinion 387. (1956b) Suppression under the Plenary Powers of the generic name *Anodon* Smith, 1829 for the purpose of validating the generic name *Dasypeltis* Wagler, 1830, for the African egg-eating snake (Class Reptilia). *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 12(8), 241–250.

ICZN Opinion 390. (1956c) Determination under the Plenary Powers of the taxon to which shall be applicable the specific name *simus* Linnaeus, 1766 as published in the combination *Coluber simus* (Class Reptilia). *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 12(13), 273–284.

ICZN Direction 37. (1956d) Completion of the entries relating to the names of certain genera of the order Decapoda (class Crustacea) placed on the Official List of Generic Names in Zoology in the period up to the end of 1936. *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 1D(2), 47–82.

ICZN Direction 56. (1956d) Completion and in certain cases correction of entries relating to the names of genera belonging to the classers Pisces, Amphibia and Reptilia made in the Official List of Generic Names in Zoology in the period up to the end of 1936. *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 1D(17), 337–364.

ICZN Opinion 490. (1957) Action under the Plenary Powers to preserve for use in its accustomed sense the generic name "*Elaphe*" Fitzinger, 1833 (Class Reptilia). *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 17(12), 179–196.

ICZN Opinion 524. (1958a) Interpretation of the nominal species "*Coluber ahaetulla*" Linnaeus, 1758, and addition to the "Official list of generic names in zoology" of the generic name "*Ahaetulla*" Link, 1807, with "*Ahaetulla mycterizans*" Link, 1807, as type species (Class Reptilia). *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 19(11), 261–276.

ICZN Opinion 525. (1958b) Determination of precedence to be accorded to the names "*Coluber pictus*" Gmelin (J.F.), 1789, and "*Coluber boiga*" Lacépède, 1789 (Class Reptilia). *Opinions and Declarations of the International Commission on Zoological Nomenclature*, London 19(12), 277–290.

ICZN Opinion 632. (1962) *Regina* Baird and Girard, 1853 (Reptilia); designation of a type-species under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 19(3), 145–147.

ICZN Opinion 644. (1963a) *Coluber atratus* Hallowell, 1845 (Reptilia); validation under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 20(1), 26–28.

ICZN Opinion 651. (1963b) *Anilius* Oken, 1816 (Reptilia); validation under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 20(2), 111–113.

ICZN Opinion 661. (1963c) *Cerastes* Laurenti, 1768 (Reptilia): designation of a type-species under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 20(3), 191–192.

ICZN Opinion 698. (1964a) *Lystrophis* Cope 1885 (Reptilia): validated under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 21(2), 101–103.

ICZN Opinion 709. (1964b) *Dendraspis* Fitzinger, 1843 (Reptilia): suppressed under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 21(3), 210–211.

ICZN Opinion 717. (1965a) *Arizona elegans* Kennicott, 1859 (Reptilia): validated under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 22(1), 19–21.

ICZN Opinion 744. (1965b) *Ablabes chinensis* Günther, 1889 (Reptilia): validated under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 22(3), 180–181.

ICZN Opinion 745. (1965c) *Coluber subocularis* Brown, 1901 (Reptilia): validated under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 22(3), 182–183.

ICZN Opinion 746. (1965d) *Spilotes melanurus* Duméril, Bibron & Duméril, 1854 (Reptilia): validated under the plenary powers. *Bulletin of Zoological Nomenclature*, London 22(3), 184–185.

ICZN Opinion 756. (1966a) *Leptophis vertebralis* Duméril, Bibron & Duméril, 1854 (Reptilia): suppressed under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 22(5–6), 284–285.

ICZN Opinion 771. (1966b) *Thamnophis sirtalis* Linnaeus, 1758 (Reptilia): rejection under the Plenary Powers of the neotype specimen designated for that species by Opinion 385. *Bulletin of Zoological Nomenclature*, London 23(1), 38–40.

ICZN Opinion 794. (1966c) *Spalerosophis* Jan, 1865 (Reptilia): validated under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 23(5), 229–231.

ICZN Opinion 804. (1967) *Coluber doliatus* Linnaeus, 1766 (Reptilia): suppressed under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 24(1), 18–19.

ICZN Opinion 939. (1970) *Python timorensis* Müller, 1844 (Reptilia): specific name suppressed under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 27(3–4), 178–179.

ICZN Opinion 963. (1971) *Amplycephalus* Kuhl & van Hasselt, 1822 (Reptilia): suppressed under the Plenary Powers. *Bulletin of Zoological Nomenclature*, London 28(1–2), 44–45.

ICZN Opinion 1035. (1975) *Mastigodryas* Amaral, 1934 (Reptilia, Serpentes): refusal to use the Plenary Powers for suppression. *Bulletin of Zoological Nomenclature*, London 32(1), 36–37.

ICZN Opinion 1045. (1976) *Boa* Linnaeus, 1758 (Reptilia, Serpentes): placed on the Official List. *Bulletin of Zoological Nomenclature*, London 32(4), 218–221.

ICZN Opinion 1165. (1981a) *Scytale niger* Daudin, 1803 (Reptilia, Serpentes): suppressed. *Bulletin of Zoological Nomenclature*, London 38(1), 61–63.

ICZN Opinion 1176. (1981b) *Echis colorata* [*sic*] Guenther, 1878 (Reptilia, Serpentes) given nomenclatural precedence over *Echis froenata* [*sic*] Duméril, Bibron & Duméril, 1854. *Bulletin of Zoological Nomenclature*, London 38(2), 110–111.

ICZN Opinion 1201. (1982a) Elapidae Boie, 1827 (Reptilia, Serpentes): ruling to stabilize nomenclature of taxa in this family (and others). *Bulletin of Zoological Nomenclature*, London 39(1), 21–26.

ICZN Opinion 1207. (1982b) *Leptotyphlops* and *Ramphotyphlops* Fitzinger, 1843 (Reptilia, Serpentes), conserved. *Bulletin of Zoological Nomenclature*, London 39(2), 106–108.

ICZN Opinion 1210. (1982c) *Psammophis sibilans subtaeniata* Peters, 1882 (Reptilia, Serpentes), conserved. *Bulletin of Zoological Nomenclature*, London 39(2), 114–116.

ICZN Opinion 1211. (1982d) *Philodryas nattereri* Steindachner, 1870 (Reptilial, Serpentes), conserved. *Bulletin of Zoological Nomenclature*, London 39(2), 117–118.

ICZN Opinion 1214. (1982e) *Chlorophis carinatus* Andersson, 1901 given conditional precedence over *Philothamnus nigrofasciatus* Buchholz & Peters, 1875 (Reptilia, Serpentes). *Bulletin of Zoological Nomenclature*, London 39(2), 124–125.

ICZN Opinion 1246. (1983) *Herpetodryas margaritiferus* Schlegel, 1837 (Reptilia, Serpentes), conserved. *Bulletin of Zoological Nomenclature*, London 40(2), 75–76.

ICZN Opinion 1374. (1986a) *Boiga* Fitzinger, 1826 (Reptilia, Serpentes), conserved. *Bulletin of Zoological Nomenclature*, London 43(1), 25–26.

ICZN Opinion 1384. (1986b) *Dromophis* Peters, 1869 (Reptilia, Serpentes), conserved. *Bulletin of Zoological Nomenclature*, London 43(2), 123–124.

ICZN Opinion 1463. (1987) De Lacépède 1788–1789, Histoire Naturelle de Serpens and later editions, rejected as a non–binominal work. *Bulletin of Zoological Nomenclature*, London 44(4), 265–267.

ICZN Opinion 1514. (1988) *Liasis* Gray, 1844 (Reptilia, Serpentes): *Liasis mackloti* Duméril & Bibron, 1844 designated as the type species. *Bulletin of Zoological Nomenclature*, London 45(3), 244.

ICZN Opinion 1634. (1991) *Atheris* Cope, 1862 (Reptilia, Serpentes), conserved. *Bulletin of Zoological Nomenclature*, London 48(1), 84.

ICZN Opinion 1686. (1992) *Natrix gemonensis* Laurenti, 1768 (currently *Coluber gemonensis*), *Coluber viridiflavus* Lacépède, 1789 and *Coluber helveticus* Lacépède, 1789 (currently *Natrix natrix helvetica*) (Reptilia, Serpentes), specific names conserved. *Bulletin of Zoological Nomenclature*, London 49(2), 174–175.

ICZN Opinion 1789. (1994) *Pseudoxyrhopus* Günther, 1881 (Reptilia, Serpentes), conserved. *Bulletin of Zoological Nomenclature*, London 51(3), 289.

ICZN Opinion 1832. (1996a) *Coluber poecilogyrus* Wied-Neuwied [1824] (currently *Liophis poecilogyrus*) (Reptilia, Serpentes): specific name conserved. *Bulletin of Zoological Nomenclature* 53(1), 72–73.

ICZN Opinion 1856. (1996b) *Lycognathophis* Boulenger, 1893 (Reptilia, Serpentes), conserved. *Bulletin of Zoological Nomenclature* 53(3), 226–227.

ICZN Opinion 1867. (1997) *Phyllophis carinata* Günther, 1864 (currently *Elaphe carinata*, Reptilia, Serpentes): specific name conserved. *Bulletin of Zoological Nomenclature* 54(1), 75–76.

ICZN Opinion 1939. (1999a) *Trigonocephalus pulcher* Peters, 1862 (currently *Bothrops pulcher, Bothriechis pulchjer* or *Bothriopsis pulchra;* Reptilia, Serpentes): defined by the holotype, and not a neotype; *Bothrops campbelli* Freire Lascano, 1991: specific name placed on the Official List. Bulletin of Zoological Nomenclature 56(3), 221–222.

ICZN Opinion 1940. (1999b) *Hoplocephalus vestigiatus* De Vis, 1884 (Reptilia, Serpentes): specific name placed on the Official List. Bulletin of Zoological Nomenclature 56(3), 218–220.

ICZN Opinion 1960. (2000a) *Crotalus ruber* Cope, 1892 (Reptilia, Serpentes): specific name given precedence over that of *Crotalus exsul* Garman, 1884. *Bulletin of Zoological Nomenclature* 57(3), 189–190.

ICZN Opinion 1960. (2000b) *Coluber infernalis* Blainville, 1835 and *Eutainia sirtalis tetrataenia* Cope *in* Yarrow, 1875 (currently *Thamnophis sirtalis infernalis* and *T. s. tetrataenia*; Reptilia, Serpentes): subspecific names conserved by the designation of a neotype for *T. s. infernalis*. *Bulletin of Zoological Nomenclature* 57(3), 191–192.

ICZN Opinion 2196. (2008a) *Calamaria* H. Boie in F. Boie, (1827) (Reptilia, Serpentes): usage conserved by designation of *C. linnaei* H. Boie in F. Boie, 1827 as the type species. *Bulletin of Zoological Nomenclature* 65(1), 79–80.

ICZN Opinion 2210. (2008b) *Atractus* Wagler, 1828 and *Atractus trilineatus* Wagler, 1828 (Reptilia, Serpentes): conserved. *Bulletin of Zoological Nomenclature* 65(3), 239–240.

ICZN Opinion 2282. (2011) *Coluber nummifer* Reuss, 1834 (currently *Hemorrhois nummifer*; Reptilia, Serpentes): specific name conserved. *Bulletin of Zoological Nomenclature* 68(3), 228–229.

Peters, W.C.H. (1862b) Präparate von zur craniologischen Unterscheidung der Schlangengattung *Elaps* und machte eine mittheilung über eine neue Art der Gattung *Simotes*, *S. semicinctus*. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1862(11), 635–638.

Peters, W.C.H. (1862c) Über die craniologischen Verschiedenheiten der Grubenottern (Trigonocephali) und über eine neue Art der Gattung *Bothriechis*. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1862(12), 670–674.

Peters, W.C.H. (1863a) Eine übersicht der von Hrn. Richard Schomburgk an das zoologische Museum eingesandten Amphibien, aus Buchsfelde bei Adelaide in Südaustralien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1863(4), 228–236.

Peters, W.C.H. (1863b) Über die von Hrn. Dr. F. Jagor in Siam gesammelten Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1863(6), 245–247.

Peters, W.C.H. (1863c) Über einige neue oder weniger bekannte Schlangenarten des zoologischen Museums zu Berlin. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1863(6), 272–289.

Peters, W.C.H. (1863d) Über eine neue Schlangengattung, *Styporhynchus*, und verschiedene andere Amphibien des zoologischen Museums. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1863(10), 399–413.

Peters, W.C.H. (1864a) Über neue Amphibien (*Typhloscincus*, *Typhlops*, *Asthenodipsas*, *Ogmodon*). *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1864(4), 271–276, 1 pl.

Peters, W.C.H. (1864b) Über einige neue Säugethiere (*Mormops*, *Macrotus*, *Vesperus*, *Molossus*, *Capromys*), Amphibien (*Platydactylus*, *Otocryptis*, *Euprepes*, *Ungalia*, *Dromicus*, *Tropidonotus*, *Xenodon*, *Hylodes*) und Fische (*Sillago*, *Sebastes*, *Channa*, *Myctophum*, *Carassius*, *Barbus*, *Capoëta*, *Poecilia*, *Saurenchelys*, *Leptocephalus*). *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1864(6), 381–399.

Peters, W.C.H. (1864c) Über eine neue Art der Baumviper, *Atheris polylepis*, aus Liberia. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1864(11), 642–645.

Peters, W.C.H. (1864d) [Der] Kieferapparat einer neuen Schlangengattung, *Ogmodon*, von den Fidgiinseln. *Sitzungsberichte der Gesellschaft Naturforschender Freunde zu Berlin* 1864(4), 8.

Peters, W.C.H. (1865) Einen ferneren Nachtrag zu seiner Abhandlung über Typhlopina. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1865(6), 259–263, 1 pl.

Peters, W.C.H. (1866) Über neue Amphibien (*Amphibolurus*, *Lygosoma*, *Cyclodus*, *Masticophis*, *Crotaphopeltis*) und Fische (*Diagramma*, *Hapalogenys*) des Kgl. zoologischen Museum. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1866(2), 86–96.

Peters, W.C.H. (1867a) Eine vorläufige Übersicht der aus dem Nachlass des Baron Carl von der Decken stammenden und auf seiner ostafrikanischen Reise gesammelten Säugethiere und Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1866, 884–892.

Peters, W.C.H. (1867b) Herpetologische Notizen. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1867(1), 13–37.

Peters, W.C.H. (1867c) Über eine Sammlung von Flederthieren und Amphibien aus Otjimbinque in Südwestafrica, welch Hr. Missionär Hahn dem zoologischen Museum zugesandt hat. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1867(4), 234–237, 1 pl.

Peters, W.C.H. (1867d) Über Flederthiere (*Pteropus Gouldii*, *Rhinolophus Deckenii*, *Vespertilio lobipes*, *Vesperugo Temminckii*) und Amphibien (*Hypsilurus Godeffroyi*, *Lygosoma scutatum*, *Stenostoma narirostre*, *Onychocephalus unguirostris*, *Ahaetulla polylepis*, *Pseudechis scutellatus*, *Hoplobatrachus Reinhardtii*, *Hyla coriacea*). *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1867(11), 703–712, 3 figs.

Peters, W.C.H. (1868a) Über eine neue Nagergattung, *Chiropodomys penicillatus*, so wie über einige neue oder weniger bekannte Amphibien und Fische. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1868(7), 448–461, 2 pls.

Peters, W.C.H. (1868b) Über neue Säugethiere (*Colobus, Rhinolophus*, *Vesperus*) und neue oder weniger bekannte Amphibien (*Hemidactylus*, *Herpetodryas*, *Spilotes*, *Elaphis*, *Lamprophis*, *Erythrolamprus*). *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1868(12), 637–642.

Peters, W.C.H. (1869) Über neue Gattungen und neue oder weniger bekannte Arten von Amphibien (*Eremias*, *Dicrodon*, *Euprepes*, *Lygosoma*, *Typhlops*, *Eryx*, *Rhynchonyx*, *Elapomorphus*, *Achalinus*, *Coronella*, *Dromicus*, *Xenopholis*, *Anoplodipsas*, *Spilotes*, *Tropidonotus*). *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1869(5), 432–445, 1 pl.

Peters, W.C.H. (1870a) Über mexicanische Amphibien, welche Hr. Berkenbusch in Puebla auf Veranlassung des Hrn. Legationsraths von Schlözer dem zoologischen Museum zugesandt hat. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1869(12), 874–881.

Peters, W.C.H. (1870b) Über neue Amphibien (*Hemidactylus*, *Urosaura*, *Tropidolepisma*, *Geophis*, *Uriechis*, *Scaphiophis*, *Hoplocephalus*, *Rana*, *Entomoglossus*, *Cystignathus*, *Hylodes*, *Arthroleptis*, *Phyllobates*, *Cophomantis*) des Königlich zoologischen Museums. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1870(8), 641–652, 2 pls.

Peters, W.C.H. (1871a) Über eine von Hrn. Dr. Robert Abendroth in dem Hochlande von Peru gemachte Sammlung von Amphibien, welche derselbe dem Königl. zoologischen Museum geschenkt hat. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1871(8), 397–404.

Peters, W.C.H. (1871b) Über neue Reptilien aus Ostafrika und Sarawak (Borneo), vorzüglich aus der Sammlung des Hrn. Marquis J. Doria zu Genua. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1871(11), 566–581.

Peters, W.C.H. (1872a) Über einige von Hrn. Dr. A.B. Meyer bei Gorontalo und auf den Togian-Inseln gesammelte Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1872(7), 581–585.

Peters, W.C.H. (1872b) Über drei neue Schlangenarten (*Calamaria bitorques*, *Stenognathus brevirostris* und *Hemibungarus gemianulis*) von den Philippinen. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1872(7), 585–587.

Peters, W.C.H. (1872c) Über eine neue von Hrn. Dr. A.B. Meyer auf Luzon entdeckte Art von Eidechsen (*Lygosoma* (*Hinulia*) *leucospilos*) und eine von demselben in Nordcelebes gefundene neue Schlangengattung (*Allophis nigricaudus*). *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1872(8), 684–687.

Peters, W.C.H. (1872d) Übersicht der von den Herren Mse. G. Doria und Dr. O. Beccari in Sarawack auf Borneo von 1865 bis 1868 gesammelten Amphibien. *Annali del Museo Civico di Storia Naturale di Genova* 3, 27–45, pls. 2–6.

Peters, W.C.H. (1873a) Über den *Hydrus fasciatus* Schneider und einige andere Seeschlangen. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1872(12), 848–861, 2 pls.

Peters, W.C.H. (1873b) Über zwei Giftschlangen aus Afrika und über neue oder weniger bekannte Gattungen und Arten von Batrachiern. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1873(5), 411–418, 4 pls.

Peters, W.C.H. (1873c) Über eine neue Schildrötenart, *Cinosternon Effeldtii* und einige andere neue oder weniger bekannte Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1873(10), 603–618, 1 pl.

Peters, W.C.H. (1874a) Über eine von Hrn. F. Pollen und van Dam auf Madagascar und anderen ostafrikanischen Inseln gemachte Sammlung von Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1873(12), 792–795.

Peters, W.C.H. (1874b) Über neue Reptilien (*Peropus*, *Agama*, *Euprepes*, *Lygosoma*, *Typhlops*, *Heterolepis*) der herpetologischen Sammlung des Berliner zoologischen Museum. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1874(2), 159–164, 1 pl.

Peters, W.C.H. (1874c) Über einige neue Reptilien (*Lacerta*, *Eremias*, *Diploglossus*, *Euprepes*, *Lygosoma*, *Sepsina*, *Ablepharus*, *Simotes*, *Onychocephalus*). *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1874(6), 368–377, 1 pl.

Peters, W.C.H. (1875) Über die von Hrn. Professor Dr. R. Buchholz in Westafrika gesammelten Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1875(3), 196–212, 3 pls.

Peters, W.C.H. (1876a) Eine zweite Mittheilung über die von Hrn. Professor Dr. R. Buchholz in Westafrica gesammelten Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1876(2), 117–123, 1 pl.

Peters, W.C.H. (1876b) Über die von S.M.S. Gazelle mitgebrachten Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1876(8), 528–535, 1 pl.

Peters, W.C.H. (1877a) Herpetologische Notizen. II. Bemerkungen über neue oder weniger bekannte Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1877(6), 415–423, 1 pl.

Peters, W.C.H. (1877b) Über die von Hrn. Prof. Dr. K. Möbius 1874 auf den Maskarenen und Seychellen, sowie über die von Hrn. Dr. Sachs im vorigen Jahr in Venezuela gesammelten Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1877(7), 455–460, 1 pl.

Peters, W.C.H. (1877c) Übersicht der Amphibien aus Chinchoxo (Westafrika), welche von der Africanischen Gesellschaft dem Berliner zoologischen Museum übergeben sind. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1877(10), 611–620, 1 pl.

Peters, W.C.H. (1877d) Nachtrag [Übersich der Amphibien aus Chinchoxo (Westafrika), welche von der Africanischen Gesellshaft dem Berliner zoologischen Museum übergeben sind]. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1877(10), 620–621.

Peters, W.C.H. (1878) Über die von Hrn. J.M. Hildebrandt während seiner letzten ostafrikanischen Reise gesammelten Säugethiere und Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1878(3), 194–209, 2 pls.

Peters, W.C.H. (1879) Über neue Amphibien des Kgl. zoologischen Museums (*Euprepes*, *Acontias*, *Typhlops*, *Zamenis*, *Spilotes*, *Oedipus*). *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1879(8), 773–779, 1 pl.

Peters, W.C.H. (1880a) Über neue oder weniger bekannte Amphibien des Berliner zoologischen Museums (*Leptosoma dispar*, *Monopeltis* [*Phractogonus*] *jugularis*, *Typhlops depressus*, *Leptocalamus trilineatus*, *Xenodon punctatus*, *Elapomorphus erythronotus*, *Hylomantis fallax*). *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1880(2), 217–224, 1 pl.

Peters, W.C.H. (1880b) Über die von Hrn. Gerhard Rohlfs und Dr. A. Stecker auf der Reise nach der Oase Kurfa gesammelten Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1880(3), 305–309, 1 pl.

Peters, W.C.H. (1880c) Über die von Hrn. J.M. Hildebrandt auf Nossi-Bé und Madagascar gesammelten Säugethiere und Amphibien. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1880(6), 508–511.

Peters, W.C.H. (1881a) Eine neue Gattung von Geckonen, *Scalabotes thomensis,* welche Hr. Professor Dr. Greeff in Marburg auf der westafrikanischen Insel St. Thomé entdeckt hat, und über die Stellung von *Elaps Sundevallii* Smith, eine von Wahlberg im Kafferlande gefundene Art von Schlangen. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1880(10), 795–798, 1 pl.

Peters, W.C.H. (1881b) Über das Vorkommen schildförmiger Verbreiterungen der Dornfortsätze bei Schlangen und über neue oder weniger bekannte Arten dieser Abtheilung der Reptilien. *Sitzungsberichte der Gesellschaft Naturforschender Freunde zu Berlin* 1881(3), 49–52.

Peters, W.C.H. (1881c) Einige herpetologische Mittheilungen, 1. Uebersicht der zu den Familien der Typhlopes und Stenostomi gehorigen Gattungen oder Untergattungen. *Sitzungsberichte der Gesellschaft Naturforschender Freunde zu Berlin* 1881(4), 69–71.

Peters, W.C.H. (1881d) Herpetologische Mittheilungen. 2. Ueber zwei neue Arten der Schlangengattung *Psammophis* und über die Synonymie von zwei Arten der Lycodonten. *Sitzungsberichte der Gesellschaft Naturforschender Freunde zu Berlin* 1881(6), 88–90.

Peters, W.C.H. (1881e) Zwei neue von Herrn Major von Mechow während seiner letzten Expedition nach West-Afrika entdeckte Schlangen von und gab Uebersicht der von ihm mitgebrachten herpetologischen Sammlung. *Sitzungsberichte der Gesellschaft Naturforschender Freunde zu Berlin* 1881(9), 147–150.

Peters, W.C.H. (1882a) Über eine neue Gattung und Art der Vipernattern, *Dinodipsas angulifera*, aus Südamerika. *Monatsberichte der königlich Akademie der Wissenschaften zu Berlin* 1882(40), 893–896, pl. 15.

Peters, W.C.H. (1882b) Eine neue Art oder bemerkenswerthe Varietät der Schlangengattung *Macroprotodon* Guichenot, *M. maroccanus*, aus Marocco. *Sitzungsberichte der Gesellschaft Naturforschender Freunde zu Berlin* 1882(2), 27.

Peters, W.C.H. (1882c) Den Namen der Batrachiergattung *Hylonomus* in *Hyloscirtus* zu ändern und legte zwei neue Arten von Schlangen, *Microsoma notatum* und *Liophis Ygraecum* vor. *Sitzungsberichte der Gesellschaft Naturforschender Freunde zu Berlin* 1882(8), 127–129.

Peters, W.C.H. (1882d) *Naturwissenschaftliche Reise nach Mossambique auf Befehl seiner Majestät des Königs Friedrich Wilhelm IV. In den Jahren 1842 bis 1848 ausgeführt von Wilhelm C.H. Peters. Zoology. III. Amphibien*. Berlin, xv + 191 pp., 33 pls.

Peters, W.C.H. (1883) Über *Opisthoplus degener*, eine neue Gattung und Art der Schlangen mit ganz eigenthümlicher Bezahnung. *Sitzungsberichte der Gesellschaft Naturforschender Freunde zu Berlin* 1882(52), 1147–1150, 4 figs.

Peters, W.C.H. & Doria, G. (1878) Catalogo dei rettili e dei batraci raccolti da O. Beccari, L.M. d'Albertis e A.A. Bruijn nella sotto-regione Austro-Malese. *Annali del Museo Civico di Storia Naturale di Genova* 13, 323–450, 7 pls.
